Amnesty International reports & statements

Afghanistan: Protect Afghan civilians and refugees. 9 October (AI index: ASA 11/012/2001). Amnesty International calls on the international community at large to intensify efforts to respond to the humanitarian emergency inside Afghanistan and in the neighbouring countries, which together already host the largest refugee population in the world. http://www.web.amnesty.org/web/news.nsf/WebAll/0AF6FA1EA512177380256AE0004B9A99

Tunisia: Police assault on Amnesty International's trial observers. 29 September (AI index: MDE 30/026/2001). Dr Moncef Marzouki's one year sentence in connection with human rights activities was suspended in the 29 September hearing. Amnesty International delegates who visited Tunisia to observe the trial were assaulted: http://www.web.amnesty.org/web/news.nsf/WebAll/A8217B3DB4948F6B80256AD800329B3E

This is a small selection of Amnesty International reports and statements. For a comprehensive overview, please check Amnesty International's website: http://www.amnesty.org/

Further news

China - HIV infections after selling blood. The Boston Globe published a report from AP that 118 people in one village had been infected with HIV while selling blood (11 October). http://www.boston.com/dailynews/284/world/In_unusual_disclosure_Chinese_:shtml

Kenya - school dormitories for girls refusing FGM. The Daily Nation (Kenya) reported on schools in West Pokot District who offer boarding places to girls who want to leave home in order not to undergo FGM (10 October). http://www.nationaudio.com/News/DailyNation/Supplements/Wednesday/current/story1.htm

France - WMA meeting on threat of biological weapons. The World Medical Association called together representatives of medical associations to discuss the threat of biological and chemical weapons. The BBC (4 October) quoted Professor Vivienne Nathanson from the British Medical Association: "There's clearly a role in terms of public health (...) to try to make sure governments are producing the right kinds of vaccines, have them in the right places, and have policies for dealing with potentially thousands of critically ill people". http://news.bbc.co.uk/hi/english/health/newsid_1579000/1579151.stm

The Guardian (London) reported on types of anthrax (9 October): http://www.guardian.co.uk/waronterror/story/0,1361,566078,00.html

South Africa - Rape Intervention Project evicted by provincial government. The Washington Post reported that the Greater Nelspruit Rape Intervention Project (GRIP) in the province of Mpumalanga used to counsel rape victims in their office in a public hospital, provided them with morning-after pills, antibiotics to treat sexually transmitted diseases and anti-retroviral drugs which may reduce the rate of infection with HIV. The Mpumalanga government told GRIP to leave the premises because of supplying anti-retroviral drugs (1 October). http://www.washingtonpost.com/wp-dyn/articles/A50514-2001Sep30.html

Meanwhile the BBC reported that a South African pharmaceutical company "has been given the patents to generically produce and supply anti-retroviral drugs to the government health service and to non-profit making anti-AIDS charities" (8 October). http://news.bbc.co.uk/hi/english/business/newsid_1586000/1586355.stm

United Kingdom - call for more refugee doctors in national health service. The BBC reported that the Royal College of Physicians called for easier access to positions in the national health service for refugees who trained as doctors in their home countries (2 October). http://news.bbc.co.uk/hi/english/health/newsid_1574000/1574872.stm

USA - end to use of electric chair in Georgia. The Georgia Supreme Court ruled that the use of the electric chair for executions constitutes a cruel punishment which must be replaced by lethal injection (Chicago Tribune, 6 October 2001). http://www.chicagotribune.com/news/printedition/chicago/0110060104oct06.story

USA - end violence against women: web-site. Johns Hopkins University has launched a web-site focussing on Violence against Women. See the resources available at: http://www.endvaw.org/current.htm

*Correction *
In the last newsletter (28 September) we gave a link to the South African Government paper on its strategy on HIV/AIDS ( This file is now available at: www.gov.za/documents/2000/aidsplan2000.pdf  We found this link on the web-site of the African National Congress (ANC) and incorrectly attributed the policy paper itself to the ANC. As the link makes clear the paper is published on the government web-site. Apologies for this error.
