BIBLIOGRAPHY

Publications on health and human rights themes:

1982-1997

This bibliography makes no claim to completeness. Rather it is a selected listing of papers, articles and books listed under different thematic headings with an emphasis on publications which can be retrieved from medical or other libraries. For articles prior to 1982, see earlier AI bibliographies (for example, "Bibliography of publications on health and human rights themes, AI Index: ACT 75/03/93, 30 September 1993"). Some attempt has been made to provide keywords as a guide to the contents of articles but these are rudimentary. We have tried to provide sufficient information for each publication to allow a reader to obtain a copy through normal library request. Where readers are unable to obtain copies, Amnesty International may be able to suggest possible alternative sources. In general, though, this is a “help yourself” bibliography.

We would welcome any corrections to entries which are incomplete or in error and we apologise to any author whose paper is not listed here and should be.

The internet—the world-wide network of computers which can be accessed by anyone with a computer and appropriate hardware and software—is an increasingly important resource for human rights information. The following sites have a human rights orientation:

- American Association for the Advancement of Science Directory of human rights resources on the Web: http://www.aaas.org/spp/dspp/shr/dhr.htm
- Human Rights Internet: http://www.hri.ca
- Human Rights Watch: http://www.hrw.org/home.html
- International Committee of the Red Cross: http://www.icrc.org
- UNHCR: http://www.unhcr.ch
- UN treaty database: http://www.un.org/depts/treaty
- World Health Organization: http://www.who.ch

These sites will contain links taking you to other relevant web sites.

Amnesty International can be contacted via email at the following addresses:

amnestyis@amnesty.org for general queries
medical@amnesty.org for matters relating to AI’s program for health professionals.

HUMAN RIGHTS

KEYWORDS: genocide / impunity / Bosnia / medical profession

KEYWORDS: human rights / medical profession / medical practice

KEYWORDS: human rights / torture / extra judicial executions / death penalty / disappearance / cruel, inhuman and degrading treatment / documentation

KEYWORDS: conventions / human rights

KEYWORDS: false confessions

KEYWORDS: Geneva conventions / international law / doctors

KEYWORDS: 

KEYWORDS: political prisoners / oppression / Russia

KEYWORDS: humanitarian law / ICRC

GENERAL

KEYWORDS: psychoanalysis

KEYWORDS: prison memoirs / South Africa / torture

KEYWORDS: human rights / science / biomedical technology / ethics

KEYWORDS: truth commissions / investigations

KEYWORDS: landmines

KEYWORDS: UK / psychiatry / prison / diagnosis / mental health

KEYWORDS: 

KEYWORDS: Nazi / concentration camps / behaviour / sequelae

KEYWORDS: human rights / scientists / activists / victims

KEYWORDS: weapons / trauma / arms race

KEYWORDS: torturers / bibliography / psychology / testimony

KEYWORDS: human rights / AI

**KEYWORDS:**
