Date: February 1992

LIST OF SECTIONS AND OTHER AI OFFICES

Summary

Attached is an up-to-date list of section and other AI office addresses. These are the public addresses of sections which are printed in the annual report and all other publications. The list also includes telephone, fax and telex numbers where available. In addition to these numbers, we have listed the external electronic mail addresses of those sections who are ready to receive mail. (NB where only one user name is given, this is the main user name for initial contact only. You should then ascertain the correct user name(s) of your correspondent(s))

Addresses of section regional offices/branches have also been included as an appendix. Please note that this is not a complete list.

Addresses for coordinating structures in countries where we have well-established groups but no section are also listed. Please bear in mind that these may not have resources comparable to those of a section and the Membership Unit at the IS should be consulted if a particular initiative relating to sections is to include non-section structures.

This list replaces the circular AI Index: ORG 41/04/91 issued in June 1991. Sections marked with "▽" have changed their address, phone, telex or fax numbers since the previous list was issued.

Distribution

The attached list is external and may be distributed freely.

Recommended actions

1. Please ensure that this list of addresses is incorporated into your section records. There are major changes since the last version.

2. Please remember to inform the IS (**Secretary General's Office**) immediately of any change of address, telephone number, telex, etc!
Thank you.

PLEASE NOTE

TELEPHONE NUMBERS are shown in the INTERNATIONAL FORMAT. This consists of a "+" sign followed by the country code, area code (where there is one) and then the number. To call any section in a country other than your own, dial the INTERNATIONAL PREFIX FROM YOUR

COUNTRY (represented by the "+" sign) followed by the rest of the number as shown. For example, "+49 228 650981" dialled from the UK would be "010 49 228 650981".

Le. 010 = international code (from UK)
49 = country code (FRG)
288 = area code (Bonn)
650981 = the section's telephone number
