PERU: Pedro ANDERSON RODRIGUEZ, 23-year-old student

Amnesty International has now learned that the detention of Pedro Anderson Rodríguez, a 23-year-old student who had been detained and reported as disappeared in June 1991, has now been acknowledged by the authorities.

The information received indicates that the military authorities in Tarapoto, San Martín department acknowledged the detention of Pedro Anderson Rodríguez and that he was transferred sometime around 17 July to the Policía Técnica de Tarapoto, the local investigative police, where he is being investigated on charges of terrorism.

No further action is required. Many thanks to those who responded to this case.
