

**USA: JUSTICE FOR ALBERT  
WOODFOX AND HERMAN WALLACE**

DECADES OF ISOLATION IN LOUISIANA PRISONS  
MUST END

**AMNESTY  
INTERNATIONAL**

**Dear Governor Bobby Jindal,**

Albert Woodfox and Herman Wallace have been held by the Louisiana Department of Corrections for nearly four decades in conditions which Amnesty International believes violate international human rights treaties to which the USA is a party.

Throughout their prolonged isolation, they have been confined to small single cells for 23 hours a day without access to work or rehabilitation programs. Lawyers report that both men are suffering from serious health problems caused or exacerbated by their years of confinement. During all this time, they have been denied any meaningful review of the reasons for their isolation.

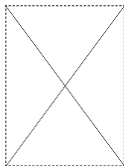

I am writing to urge you to take immediate steps to remove Albert Woodfox and Herman Wallace from close confinement and to ensure that their treatment complies with the USA's obligations under international standards and the US Constitution.

Yours sincerely,
