SCHOOL PROGRESS REPORT FOR THE CZECH GOVERNMENT

NAME: Bohuslav Sobotka

CLASS: Prime Minister of the Czech Republic

SCHOOL YEAR: 2014/15

SUBJECT:	GRADE:
Protecting Romani children from discrimination in schools	FAIL
Admitting the extent of ethnic discrimination in schools	FAIL
Making a promise to end discrimination in schools	FAIL
Having a solid plan to tackle discrimination in schools	FAIL
Complying with EU laws prohibiting racial discrimination	FAIL

FEEDBACK:

Romani children in the Czech Republic are not getting the same education as other children. They're bullied just for being different, kept separate from other pupils and even placed in schools for children with learning disabilities. It means they can't fulfil their potential and build a better future – for themselves, their families and communities, and Czech society.

The European Commission has criticised your government for failing to tackle this discrimination, and you can't ignore this any longer. You must commit to ending school discrimination and getting rid of segregation now. Integration, not segregation, is the answer.
