

HACKED TO DEATH FOR DEFENDING LGBTIQ RIGHTS

XULHAZ MANNAN

HUMAN RIGHTS DEFENDER, BANGLADESH

Xulhaz Mannan was in his apartment with a colleague when men wielding machetes burst in and hacked them to death. Xulhaz was a founder of Bangladesh's only LGBTIQ magazine, a daring venture in a country where same-sex relations are illegal. Despite ample evidence, including CCTV footage and eyewitness testimony, one year on the killers have yet to be charged for this brutal murder.

Tell Bangladesh to bring Xulhaz's killers to justice.
