

# TAKE INJUSTICE PERSONALLY

We are a global movement  
of 7 million people

We campaign for human rights for all and a safer  
world where everyone can enjoy justice, freedom,  
truth and dignity.

We are funded and supported by people like you,  
independent of any government, political interest,  
ideology or religion.

We investigate and expose abuses everywhere -  
no government is beyond scrutiny.

We bring hope to people in dark places: no  
situation is hopeless.

Imagine what we can  
achieve together!

How many people can we free?

How many more torturers can we bring to justice?

How many more people will live in dignity and speak  
their minds without being afraid?

We can't do it without you so join Amnesty today and  
start making a difference.

 @amnesty

We stand for a world where

- 1** Everyone can enjoy their human rights  
without discrimination
- 2** People are protected from abusive  
governments and companies
- 3** Abusers are held to account and  
brought to justice

## Now is the time to say 'I Welcome'

More than 22 million people worldwide have been forced to flee their countries. Instead of protecting them, many wealthy nations are turning their backs – even dehumanising refugees in the most shocking ways.

But thousands of people worldwide don't buy it. Through Amnesty's I Welcome campaign, we're taking matters into our own hands and joining forces to welcome refugees into our communities.

Because we know that change starts with each and every one of us standing up for what's right, and telling our governments to do the same.

**#IWelcome**
