Citizens with orphan status are to be given priority with social housing (Law no.9232 "On Social Programmes for Housing Inhabitants of Urban Areas")

Dear Prime Minister,

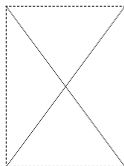

I am concerned that Albanian citizens with orphan status continue to be denied their right to priority with housing when they reach adulthood and therefore risk homelessness, poverty and social exclusion.

I urge you to ensure that central and local authorities take immediate steps to fulfil their legal obligation to give homeless people with orphan status priority with housing under the programmes specified in the above law. If social housing is currently insufficient to meet their needs, I urge that other solutions be found, such as subsidized rents for private accommodation, also provided for under this law.

Yours sincerely,

Name: _____
