TURKEY: Hamza Yalçin, aged 34  
+ four others

=====  
Amnesty International has now learned that Hamza Yalçin, who carries a valid Swedish passport, has been seen by his family. He is apparently on hunger-strike in protest against his detention. No further action is required on his behalf.

It has also been learned that four people (not two, as stated earlier) were detained together with Hamza Yalçin, but nothing more is known about their situation. Pending further information becoming available, no further action is requested on their behalf. Thank you to all who sent appeals.
