# STOP ACTION

## SHAMKHAN AZIEV RECEIVES MEDICAL CARE

Shamkhan Aziev was transferred to a prison hospital in Ust-Labinsk of Krasnodar krai. He was brought there by a special prisoners' transport, as requested by Amnesty International. He was examined on arrival. Unfortunately, doctors discovered that he also has TB. The family hopes that Aziev will be provided with necessary treatment now. Shamkhan Aziev's mother and brothers, as well as our contacts from Memorial NGO are really grateful to Amnesty International for the action taken. They have stated that without the help of Amnesty International it would not have been possible to achieve changes in his case.

We will continue to monitor the case and issue any further actions if necessary. Thank you to all who sent appeals.

### ADDITIONAL INFORMATION

This is a follow up of health professional action EUR 46/027/2011 (29 June 2011).
