

POL 32/009/2004 Postcard

Send this postcard to your government asking them to make sure human rights education is taught as a priority in your school by January 2006.

Dear Minister,

I want to learn about my human rights.

Please make sure my school teaches me about them and has the resources and support of the government to make this an important part of school life by January 2006.

My government has a duty under international law\* to teach me regularly about human rights so I can protect my own rights and those of my friends, my family and the wider community.

Name

Age

School

I have a right to be taught my rights!

\*Human rights education as a right is affirmed in many international treaties, including the Convention on the Rights of the Child (Article 29)
